Psycholo Advanced Unit 4: How Psych		
Tuesday 14 June 2016 – Time: 2 hours	Morning	Paper Reference 6PS04/01
You do not need any other	r materials.	Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer all questions in Section A. In Section B answer Questions 6, 7 and 8 and then EITHER Question 9(a) OR 9(b).
- Answer the questions in the spaces provided
 - there may be more space than you need.

Information

- The total mark for this paper is 90.
- The marks for **each** question are shown in brackets
 - use this as a guide as to how much time to spend on each question.
- Questions labelled with an asterisk (*) are ones where the quality of your written communication will be assessed
 - you should take particular care on these questions with your spelling, punctuation and grammar, as well as the clarity of expression.

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

Turn over ▶

SECTION A: CLINICAL PSYCHOLOGY

Answer ALL questions.

You are advised to spend approximately one hour on Section A.

1 (a) Describe the social norms definition of abnormality.

*8	Two students have been asked to undertake a content analysis of gender issues in		
	stories that have been written for children between the ages of two and twelve years.		
	Explain how they could design and undertake their content analysis, including how they might analyse the data collected.		
	You may wish to include some of the following in your answer:		
	 sampling method sources of information categories inter-rater reliability 		
	data analysis.	(9)	
] 			

(Total for Question 8 = 9 marks)

Chosen question number:

Answer EITHER Question 9(a) OR Question 9(b).

EITHER

*9 (a) Describe **and** evaluate how issues of ethnocentrism may influence psychological understanding. You must use research evidence from at least two different areas of psychology in your answer.

OR

*9 (b) The armed forces of any country consist of mainly young men and women. They are deployed at home and abroad, and are expected to carry out a wide variety of jobs. Officer training in Ranzea involves a 10-month training course, after which the new officer will take charge of a group of about 30 soldiers. Teaching new officers about psychological concepts can help them to be better at their job.

Question 9(a)

Describe **and** evaluate at least **two** different psychological concepts that could be included in the training programme for new army officers to make them better at their job.

(18)

Indicate which question you are answering by marking a cross in the box \boxtimes . If you change your mind, put a line through the box \boxtimes and then indicate your new question with a cross \boxtimes .
